SUMMARY

Computer Science graduate with a strong foundation in Core Java, Object-Oriented Programming, and Data Structures, specializing in full-stack development with Spring Boot, Hibernate, JDBC, and React.js. Experienced in designing SQL-based relational schemas, REST APIs, and microservices architectures through academic and internship projects. Strong problem-solving and analytical skills, with a quick-learning mindset and genuine interest in growing as a Java Full Stack Developer.

SKILLS

Languages: Java, SQL, JavaScript

Web Technologies: HTML5, CSS3, React.js

Frameworks/Libraries: Spring Boot, Spring Data JPA, Hibernate, JDBC, Servlets, JSP

Microservices: Eureka Service Discovery, Spring Cloud Gateway, Config Server, Feign Clients, REST APIs

Security: JWT Authentication, Spring Security

Databases: MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, Docker, Postman, Maven, Postman, IntelliJ IDEA, Eclipse, VS Code

Concepts: OOP, Collections, Exception Handling, Multithreading, CRUD Operations, Dependency Injection, WebClient

PROJECTS

Employee Leave & Attendance Management System (ELAMS) | *GitHub*

- Architected an HR platform on Spring Boot microservices with 6 services (API Gateway, Config Server, Eureka Registry, Employee, Leave, Attendance), using Eureka for service discovery, OpenFeign for inter-service calls, and Docker.
- Developed 45+ REST APIs on MySQL covering role-based access (Employee/Manager/Admin), shift assignment, 6 leave types with approval workflows, and clock-in/clock-out attendance with weekly, monthly, and custom-range reports.
- Secured the platform with JWT (HS256) authentication at the API Gateway via a custom `OncePerRequestFilter`; built a role-based React 19 SPA with Material-UI, Context API, Axios interceptors, and light/dark theming.

Algorithm Visualizer | *GitHub*

- Built an interactive visualizer in HTML, CSS, and JavaScript to demonstrate Bubble, Selection, and Insertion Sort with synchronized pseudocode highlighting, reinforcing core data structures and algorithms concepts.
- Optimized rendering with GSAP, improving animation smoothness by 40% and algorithm comprehension for learners.

INTERNSHIP EXPERIENCE

Java Development Intern – Besant Technologies Pvt Ltd — Jul 2024 - Sep 2024

- Developed and optimized Java-based blog web applications, improving load performance by 12% and reducing bugs by 30%.
- Ensured cross-browser compatibility and standards compliance through systematic testing and validation.
- Applied modern Java development tooling and workflows in real-world development tasks.

Full Stack Web Development Intern – 8Queens Software Technologies Pvt Ltd — Jun 2024 - Jul 2024

- Designed and developed responsive personal portfolio websites using React.js, improving UI consistency and user experience.
- Reduced page load time by 25% through efficient component rendering and code-level performance optimizations.

AIML Intern – Annamalai Innovation and Incubation Research Foundation — Jun 2023 - Jul 2023

- Gained hands-on experience with supervised and unsupervised machine learning techniques, training classification and prediction models in Python using Scikit-learn.

EDUCATION

Annamalai University, BE in Computer Science and Engineering — Sep 2022 - May 2025

V Ramakrishna Polytechnic College, Diploma - 84.5% — Jun 2019 - Jul 2022

ZPHS, Obulalayapalli, SSLC (10th) - CGPA: 8.2 — Jul 2018 - Apr 2019

CERTIFICATIONS

Java Full Stack Development — QSpiders — Oct 2026

Cloud Computing — NPTEL

Social Networks — NPTEL
