SUMMARY

Computer Science and Engineering graduate specializing in Java Full Stack Development, with hands-on experience across Core Java, Spring Boot, Hibernate, React.js, and REST API design. Built and deployed full-stack applications using Java/Spring backends with MySQL and PostgreSQL, and React front ends. Internship experience delivering measurable performance improvements in production web applications. Strong foundation in Data Structures, OOP, and SQL; quick learner actively expanding into DevOps tooling (Docker, Jenkins, Git).

SKILLS

Languages: Java, Python, JavaScript, SQL

Java Backend: Spring Boot, Hibernate, JDBC, Servlets, JSP, REST APIs

Frontend: React.js, CSS, HTML5, Material-UI

Databases: MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, Linux, Docker (basics), Jenkins (basics), AWS (basics)

Concepts: OOP, Data Structures & Algorithms

PROJECTS

Employee Leave & Attendance Management System (ELAMS)
Frontend: github.com/darkk-shadow/elams-react | Backend: github.com/darkk-shadow/elams-microservices

- Built a full-stack leave and attendance system with a Spring Boot REST API backend and a React.js/Redux front end, backed by MySQL.
- Designed relational schemas and REST endpoints for leave requests, multi-level approvals, and real-time attendance tracking.
- Implemented dynamic theming and responsive UI with Material-UI, and secured API integration between frontend and backend services.

Algorithm Visualizer *github.com/darkk-shadow/algo-vis*

- Built an interactive sorting visualizer (Bubble, Selection, Insertion Sort) in HTML, CSS, and JavaScript with synchronized pseudocode highlighting.
- Improved animation smoothness by 40% through GSAP-based rendering optimizations, enhancing algorithm comprehension for learners.

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern – 8Queens Software Technologies Pvt Ltd — Jun 2024 - Jul 2024

- Designed and developed responsive personal portfolio websites using React.js, improving UI consistency and user experience.
- Reduced page load time by 25% through efficient component rendering and code-level performance optimizations.
- Collaborated in real-time development cycles, applying practical debugging and problem-solving techniques.

Java Development Intern – Besant Technologies Pvt Ltd — Jul 2024 - Sept 2024

- Developed and optimized Java-based blog web applications, improving load performance by 12% and reducing bugs by 30%.
- Ensured cross-browser compatibility and standards compliance through systematic testing and validation.
- Delivered real-world development tasks using modern Java tooling and workflows.

AIML Intern – Annamalai Innovation and Incubation Research Foundation — Jun 2023 - Jul 2023

- Gained hands-on experience with supervised and unsupervised machine learning techniques.
- Trained classification and prediction models in Python using Scikit-learn.

EDUCATION

Annamalai University, BE in Computer Science and Engineering — Sept 2022 - May 2025

V Ramakrishna Polytechnic College, Diploma - 84.5% — Jun 2019 - Jul 2022

ZPHS, Obulalayapalli, SSLC (10th) - CGPA: 8.2 — Jul 2018 - April 2019

CERTIFICATIONS

Java Full Stack Development — QSpiders (In Progress) — Present

Cloud Computing — NPTEL

Social Networks — NPTEL
